-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Application 09/902,764 (CREDIT SYSTEM) has a filing date 07/12/2001 and Claims Priority from Provisional Application 60217721 (07/12/2000).

***Claim Objections***

2. The Applicant's claims 33-39 filed 07/12/2001 are misnumbered. Applicant is required to correct the misnumbered claims.

***Election/Restrictions***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-18, 19-29 and 32-37 drawn to rewarding credits based upon an offer, classified in class 705, subclass 14.
  - II. Claims 38 and 39 are drawn to using a card to make purchases, classified in class 705, subclass 41.
  - III. Claims 30-31, drawn to broadcasting an educational program, classified in class 705, subclass 434.

The inventions are distinct, each from the other because of the following reasons: Inventions I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as awarding credit based upon an offer without the need of using a card as in invention II and without the need of broadcasting an educational program as invention III. Likewise, invention II has separate utility such using a card to make purchases without the need of providing a marketing offer, as in invention I and without the need to broadcast a educational program, as invention III. Likewise, invention III has separate utility such as

broadcasting a educational program without the need of providing a marketing offer , as in invention I and without the need of using a card to make purchase, as invention II.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of an invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

***Conclusion***
